## RUSSIA LOCATES A NEST OF NIHILISTS

### Long Series of Assassinations Concocted in Switzerland—Group of Revolutionists Are Actively at Work.

St. Petersburg, Oct. 8.—The Russian police are convinced that the whole series of terrorist crimes beginning with the assassination of Minister of Public Instruction Bogolepoff by Peter Karpovich on January 27, 1901, and including the minister of the interior, Sipiagin, in April, 1902, the two attempts upon the life of M. Pobedonostoff, procurator general of the holy synod, the shooting of Prince Obolensky while he was governor of Kharkoff in 1902, the murder of Governor Engelhardt of Ufa in 1903, the working out of four other plots and finally the murder of M. Plehve last summer are traceable to a common organization.

While some of the links in the chain of evidence are lacking a long investigation has revealed the fact that the inspiration for the revival of atrocities recently in Russia comes chiefly from a band of revolutionists mostly recruited from exiles to Siberia, living on the shore of Lake Leman, Switzerland, where they possibly be located another executive committee. [illegible] of the bloody reign of nihilism from 1878 to 1881.

This fighting organization, as it is termed, seems to be without a direct object, but rather a supplemental to the work of the revolutionary propaganda which the agitators abroad are spreading among all classes of the population, the present murders being intended to stir up the discontented portion of the population.

The press campaign abroad, it is pointed out, began in December and the murders in 1901. With the capture of the revolutionary agent, Gershuni, the authorities are satisfied that they have laid hands upon the active heads in Russia of the foreign revolutionary organization.

The revelations at the trial of Gershuni, which have not been made public, it is understood, clearly implicate, among others, Gotz, Rashkovsky and Gershuni, who formed the editorial staff of the "Messenger of the Russian Revolutionaries," were the leaders of the fighting organization.

The evidence, it is declared, showed that Gotz and Rosenbaum are leaders of the anarchistic school, Rashkovsky also preached anarchy and terrorism publicly in Italy last winter. Gotz was exiled to Siberia in 1881 for participation in the assassination of Alexander II. He was a student at the University of Kieff at the time of the assassination of Alexander II. He was a student at the University of Kieff at the time of the assassination of Alexander II. He was a student at the University of Kieff at the time of

# WOULD LOOK INTO THE CONGO AFFAIR

## Peace Congress After King Leopold's Regime. Asks Also That Powers Intervene in the Eastern War.

Boston, Oct. 8.—There were two aspects memorable in their nature, according to the delegates themselves, which have made a pronounced impression during the deliberations of the International Peace congress which was brought to a close today in this city after many meetings extending throughout the week.

One of these was that the congress together with its numerous public gatherings which were held under its auspices constituted one of the most remarkable expositions of influences ever seen in America.

The second subject of observation was the fact that the congress should have given of the attitude toward the attainment of universal peace of a great many prominent and thorough students of the assembly and leaders of welfare work to be of very evident character.

The congress adjourned today to reassemble in 1907 at Liverpool, Switzerland.

Besides adopting resolutions denouncing war and calling for the creation of international obligatory arbitration treaties, the congress passed upon specific conditions.

One of its last acts was to recommend an inquiry by the powers into the Congo Free state which is at present under the personal rule of King Leopold of Belgium.

The present Russo-Japanese war was treated by a resolution calling upon the emperors of the two countries to end the conflict at once, or, that failing, for the powers to exercise the authority granted by article 27, of The Hague pact and intervene so that the war might be terminated. In this connection the congress suggested to the powers the adoption of a permanent peace-making and peace insuring council under which act he will be appointed for a brief period.

One of the most excellent practical acts of the congress was to favor the establishment in the leading cities of the world of branches of the international peace bureau at Berne, so that the masters of the people might be induced to the understanding that international harmony unites all people with the same and natural principle of life.

# POSSIBILITIES OF IRRIGATED WEST

## Senator Fairbanks Greatly Impressed by What He Has Seen---Given a Royal Western Greeting at Cheyenne.

Cheyenne, Wyo., Oct. 8.—After a forty hour day of speech making Senator Fairbanks of the Republican candidate for vice president, was welcomed to Cheyenne tonight with much show of interest.

He arrived at 7 o'clock and was met at the railroad station by a number of people. The senator and his party were then driven in hand by the local committee and placed in carriages and driven to Senator Warren's residence.

There were called upon to receive at that point a procession of marching clubs, the members of one of which were made famous electric torches, which were fed by a dynamo drawn along by a traction engine. Other features were fireworks, bonfires and numerous brass bands.

When Senator Fairbanks arrived in the city he was accompanied by Governor Bellamy, Pilton, Kearns, Warren and Clerk Cunningham, Smith of Iowa, Stull, Warren, Carpenter and Wyoming.

### Two Meetings.

When the party left Senator Warren's residence the speakers separated in order to accept the meetings which had been arranged for them at Keeler and Turner halls, respectively. Both buildings were crowded, and the speakers received a very favorable reception.

Senator Fairbanks presided at Keeler hall and introduced Gov. Cordell at Turner hall. Senator Fairbanks spoke at both meetings remaining first at Keeler hall. The last place of meeting he was followed by Congressman Smith and Senator Bellamy, while at Turner hall he was followed by Senators Bellamy and Carpenter.

In spite of his speeches Senator Fairbanks arrived from a somewhat severe campaign of this campaign. He declined to give answers to questions regarding the next. Queried [illegible] he invariably his latter would be the subject section he referred to the Democratic claim of an alliance of the administration [illegible]

### Q. Expressed.

On this subject, he said, in effect, [illegible] was greatly interested as [illegible] with the irrigation [illegible] reclamation service [illegible] recommended by President Roosevelt and carried by a Republican congress.

"The president brought the subject to the attention of congress in his annual message, December, 1901. It was never more happily put than by him, and the law now in force [illegible] has been as well laid down by the president. This great measure, fraught with such beneficence to our country and our countrymen in the years to come will stand as a tribute to Republican statesmanship. It is one of the great triumphs of Republican administration. The reclamation fund derived from the sales of public lands amounts to about $27,000,000. It will be greatly increased by future sales. The owners of the reclaimed lands will restore the fund from time to time, and it will be used in the further extension of the system until all irrigable lands have substantially been brought under cultivation, without drawing upon any of the revenues of the government, save only those which arise from public lands sales.

"The speeches by the other members of the party were also general in character in most respects. There were however, [illegible] references to the Wyoming congressional [illegible] and all such references [illegible] included.

### At Town [illegible]

At the [illegible] Senator Fairbanks today paid a tribute to the memory of Senator Hanna, saying:

"This town bears an honored name. This country has produced no better man than the late Senator Marcus A. Hanna, after whom this place is called. He was a man who understood the interests of the country as perhaps nobody else in the public service. He had been associated with mining interests for a lifetime and he carried into his work the principles of the golden rule. He understood the miners and they understood him. He stood for those policies which gave the largest amount of work to the largest number of our countrymen. [illegible] of the department of agriculture will be present at the meeting in person and will co-operate to the general plans for the establishment of the station.

# CANNOT MOVE DITCH GATES

## IMPORTANT DECISION BY JUDGE BAILEY AFFECTING RIGHT TO TRANSFER WATER ONE POINT TO ANOTHER.

Pueblo Daily Chieftain, Oct. 8.—An important decision which affects the future of Chaffee county, was rendered in the district court this morning by Judge M. E. Bailey. It is the case of the Rosedale Ditch company of Pueblo county against the owners of the Tasmene ditch of Chaffee county. The former company brought suit as a test case to try to move one foot of water from Chaffee county to the head gates of the Rosedale Ditch company in Pueblo county. Judge Bailey in rendering the decision decided that this could not be done.

Had the petitioners been given the right to move the foot of water the La Junta Ditch company, it is said, would have moved its flow from the county which would have made it a desert. The ruling have been strongly opposed by sending the head gates of the various ditches there and bringing the water back into the Arkansas river. Living and the same opinion relative to the opposition at the head gates in Pueblo county.

# MISS GOULD HAS BUSY DAY

## INSPECTS Y. M. C. A. HEADQUARTERS IN DENVER—RECEPTION BY RAILWAY MEN AT BURNHAM

Denver, Oct. 8.—Miss Helen Gould had a busy day today. This morning she inspected the Lodge form of the Y. M. C. A. and expressed herself as delighted with the work done there. This afternoon she was taken to Fort Logan where she was entertained by the officers and inspected the men's quarters and tonight a reception was given her at Burnham by the railroad branch of the Y. M. C. A.

Miss Gould also held several informal levees during the course of the day.

# HARRIMAN AND THE SANTA FE

## SOUTHERN PACIFIC INTERESTS WILL SECURE REPRESENTATION AT THE ANNUAL MEETING.

Topeka, Kas., Oct. 8.—General interest attaches to the annual meeting of the stockholders of the Atchison, Topeka & Santa Fe railroad to be held in this city October 12, the appointment of which has been made.

It is generally understood that the Harriman interests will secure a place on the board of directors, not with the idea in view of constantly controlling the system but to bring about as close an alliance as possible between the Atchison, the Union Pacific and the Southern Pacific. Harriman has for several months been buying Atchison stock with a view of getting a place on the board of directors and has acquired a large amount. How much he has purchased will not be known until the annual meeting.

# EXPERIMENTS IN HORSE BREEDING

## TO BE MADE AT COLORADO STATE AGRICULTURAL EXPERIMENT STATION UNDER GOVERNMENT SUPERVISION.

Chicago, Oct. 8.—At a conference held in Chicago today between a representative of the department of agriculture, W. L. Carrie, professor of agriculture and animal industry in the Colorado Agriculture and Experiment station, and Eugene Grubb of the Colorado state board of agriculture plans were formulated for the conducting of experiments in breeding American carriage horses with the trotting horse as a foundation. The experiments are to be conducted at the Colorado Agriculture Experiment station at Fort Collins, under government supervision and with the aid of federal money, the sum of $20,000 having been appropriated for this purpose by the last congress.

Another meeting will be held during the International live stock exposition in Chicago in November when details for the conducting of the experiments will be [illegible] of the department of agriculture will be present at the meeting in person and will co-operate to the general plans for the establishment of the station.

CURES THOSE A THOUSAND MILES AWAY THE SAME AS THOSE WHO CALL IN PERSON.

**Takes no Money for His Services, Says His Mission Is to Heal Disease and Teach Mankind a Secret Law of Nature, Which Has Been Overlooked by Doctors and Scientists for Centuries Past.**

From the ——

Rochester, N. Y., Oct. 1.—Prof. Thomas P. Adam, a leading resident of this city, has been created a sensation among the medical fraternity by the supernatural power of curing the sick by the laying on of hands. Prof. Adam claims that the power was given him by God, and that he is only the instrument through which the Creator heals the sick. He refuses to accept money for his services, and says his mission is to heal disease and teach mankind a secret law of nature, which has been overlooked by doctors and scientists for centuries past.

Prof. Adam, who is a native of Prussia, has been in this country for the past seven years. He is a man of fine appearance, and is highly educated. He speaks several languages fluently, and is a deep student of the Bible. He claims that he has been directed by God to come to this city, and that he has a number of business interests here. For decades many cures in healing the sick by laying on of hands among people in all parts of the world have been recorded, but in every instance the healer was a member of some religious denomination. Prof. Adam claims that he is not a member of any church, and that he does not believe in any creed. He says that he is only a humble instrument in the hands of God, and that he is not responsible for the cures performed

# SPEAKERS FROM ALL PARTS OF COUNTRY

A session of the institute of the Women's Home Missionary society will be held at 7:30 o'clock this evening in the First Methodist church. The Woman's Home Missionary society has just completed its twenty-fifth annual convention in Denver and for the last two days a delegation of 200 members has been visiting in Colorado Springs and vicinity.

The speakers at tonight's meeting will represent all parts of the country and are prominent in the work of the missionary society. Miss H. A. Bentrott, general superintendent of deaconess' work will preside. Mrs. Clinton B. Fisk, of New York, national president of the organization, will be among the speakers. Mrs. D. L. Williams will speak on general work, Mrs. D. L. Rubkin will talk of work on the Pacific coast and Mrs. D. B. Sweet of Washington, D. C., will recital the Sibley hospital.

The 200 delegates who spent Friday in Colorado Springs yesterday took the famous trip over the Short Line to Cripple Creek. They spent the day in the gold camp and returned early last evening. A special train was provided by the road for the accommodation of the ladies. All of them were highly pleased with the trip.

# WOMEN VOLUNTEER TO ADVANCE CAUSE

Actuated by the spirit of law and order the issue in the present campaign the Women's Auxiliary which is working hand in hand with the Republican county central committee is doing a big work for the election of Governor Peabody and the county ticket.

At their address before the auxiliary Friday afternoon Mrs. Frances G. **Averages of Meet.**

The averages were as follows: School averages, Lister, 47, Lowell, 47 5-6, Steele, 45 5-6, Garfield, 42 5-6, Columbia, 42 5-6, Bristol, 42 1-6, Washington, 37 1-6, Bancroft, 31 1-6. Individual averages, Joe Lindseth, Lister, 48, William Curtis, Lowell, 40; Robert Henry, Steele, 37; Boston Auxiliary, Columbia, 32; Harry Bernard, Garfield, 32. Eleven grade relay, Garfield, 58 5-6, Lister and Steele tied for second place. The next field meet will be held May 26.

After the meeting came the parade, such a parade as has never before been seen in this city. There were 450 boys in line and they carried flags and banners and school colors. Each school [illegible] with a banner bearing the school and leading all was a banner bearing the inscription "Down With the Cigarette" in large type. The boys marched to the beat of drums and added their own lusty voices to help attract attention. The line of march included the principal streets of the city and the parade lasted over an hour. Spectators applauded enthusiastically as the boys marched past.

This marked the close of the three-day carnival but the beginning of a determined fight against the most prevalent enemy of the boy.

## Members of Order From All Over State Will Gather Here Tuesday---Final Arrangements Were Made Last Night.

A meeting of the committee of arrangements for the big Woodmen of the World celebration to be held Tuesday, was held at Woodmen hall last night and final preparations were made.

It was reported to the committee yesterday that the Denver Woodmen camps are planning to come to this city Tuesday on a special train to take in the festivities.

The program for Tuesday will be carried out as previously outlined in these columns. Head Consul Talmadge will arrive either tomorrow evening or early Tuesday morning in time to participate in the whole day's program. He will be accompanied by other head officers, including Head Clerk Bell and Head Physician Bertschy.

**Parade in Morning.**

The parade will start at 9:30 in the morning from Woodmen hall on North Tejon street and will march from there to North park, where the [illegible] will be extended by Mayor Harris and Head Consul Talmadge will respond for the Woodmen. The parade will be the unique event of the kind in the history of the city. The arrangement for the lunch at the Soda Springs park in Manitou is completed as are also all preparations for the banquet to head officers at the Alamo hotel in the evening and the ball at Mercantile hall in the evening.

**In the Grand Canyon.**

The ceremony of initiation will commence in the Grand Canyons at the head of Williams canon, shortly afternoon. Head Consul Talmadge will preside. There will be over 200 candidates to be initiated. Monument, Fountain, Falcon, Manitou, Colorado City and Colorado Springs will all participate in the parade and will all have candidates for initiation. The Fountain and Colorado Springs bands will furnish music for the parade and the three local lodges and circles of the Women of Woodcraft will have boats in line.

# THE BIG ELK IS COMING

## Grand Exalted Ruler O'Brien to Be Here.

## PASSES THROUGH TUESDAY

LOCAL ELKS ARE PREPARING TO GIVE HIM ROYAL WELCOME. PLANS ARE NOW Being Perfected.

William J. O'Brien, Jr., of Baltimore, the grand exalted ruler of the Benevolent and Protective Order of Elks, will pass through Colorado Springs Tuesday.

Mr. O'Brien will go through this city on his way to Mexico. The local Elks are preparing to give him a royal reception here. It is not yet known whether or not Mr. O'Brien will stop off in this city but if he does not the Elks will go to the train to greet him and to extend him an invitation to come here soon. If he stops off, he will be escorted from the train to the club house and there given a reception such as the Elks alone know how to give.

Mr. O'Brien is a very popular member of the order as is attested by his election to the high office he holds. He was elected at the Chicago grand lodge session last July. He is personally known to a number of the local Elks.

# MIMIC RECITAL

## Women of Woodcraft Gave Entertainment That Was Artistic and Financial Success.

The mimic recital given under the auspices of the Women of Woodcraft at Woodmen hall Friday night was highly successful both from an artistic and a financial standpoint.

All the participants acquitted themselves with credit in a praiseworthy manner, and much credit is due to Miss Mary Frazer, under whose direction the recital was given.

The hall was well filled with friends of the children, and a neat sum will probably be realized.

# SAD DEATH ON THE PEAK

## Young Woman Arrived Too Late.

## IN POOR CIRCUMSTANCES

[illegible] AND DOCTOR SENT THEM ALL TO BRING HER OUT TO COLORADO AND HAVE PRACTICALLY NOTHING LEFT.

Coroner Law was called to the Half-way House on Pike's Peak yesterday to inquire into the death of a young woman who died there Friday night. He found that death was due to natural causes and that it was a very sad case.

The young woman was Miss Susie Arbuckle and she was about 28 years of age. She and her mother and brother came to this region three or four days ago for the health of the daughter and sister, who was in the last stages of consumption. They took a cottage at the Half-way House in the hope that close contact with the pines and the absence of city noise and smoke would cause her to fully, but she came here too late.

The family is in poor circumstances, according to Mr. Law. They spent their all to bring the sister out here for her health and have practically nothing left.

**OPERATIONS NOT ALWAYS NECESSARY.**

**Doctors Frequently Mistaken.**

"I suffered untold agony with piles for [illegible] three years. Two doctors told me nothing but an operation would cure me. I tried different remedies, but nothing did me any good until I used Pyramid Pile Cure. I bought six fifty cent boxes at the drug store, and now I can do my work and go out, where before I spent most of my time lying down. I thank God for giving the discoverer the knowledge to make such a cure. I recommend it to all my friends, and if I ever have piles again will certainly use this remarkable remedy. You can use this in any way you wish to make known the wonderful merit of Pyramid Pile Cure." Mrs. Wm. Mucky, 51 Marshall street, Elizabeth, N. J.

The experience of this lady is that of thousands of others who have been assured that nothing short of an operation would rid them of this distressing complaint. On the face of it, it appears as if too many surgeons operate in order that they may keep their hands in and lose no portion of their skill; then, again, too many surgeons are anxious to experiment like the scientific man in Mark Twain's pathetic story of the dog and her frisky puppy, and do not have proper regard for a patient's physical welfare or condition.

We advise every sufferer to think twice before submitting to an operation for piles, and suggest that those interested write to the Pyramid Drug Co., Marshall, Mich., for their little book on the causes and cure of piles, which is sent free for the asking.

**JOE NEWMAN COMING.**

The Joseph Newman company will be in Colorado Springs at the Opera house next Thursday. It is a most welcome attraction.

**VIGOROUS CAMPAIGN.**

**Washington Will Form Society After Model of Colorado Promotion and Publicity Committee.**

Although organized only last November, the work of the Colorado Promotion and Publicity committee already has attracted more attention on the Pacific coast than has the work of the California committee, which has been in operation several years. So vigorous a campaign has been conducted by the Colorado Promotion and Publicity committee, and so well is its work recognized that the business men of the state of Washington have almost decided to perfect an organization upon similar lines, and have sent a special representative to Denver to learn how the work is conducted.

Edward Miller, business manager of the Tacoma, Wash., Daily News, called at headquarters yesterday and secured a complete history of the organization of the Colorado Promotion and Publicity committee, the line of work followed and the results obtained.

"So effective seems to be your work," said Mr. Miller, "that we are thinking of [illegible] with headquarters in Tacoma. We have a great state, and there is a spirit of loyalty among the citizens which ensures a large following, if such a movement is begun. From what I have seen of your work, I believe that it is the most effective means of advertising a state, and I think that a similar campaign will be taken upon our return home."

# IOWA DIVINE CALLED HERE

**REV. ADNA W. MOORE IS CHOSEN PASTOR OF THE SECOND CONGREGATIONAL CHURCH.—HAS BEEN PREACHING HERE.**

The Second Congregational church of this city has called Rev. Adna W. Moore of Baltbeck, Ia., to become its pastor to succeed Rev. Manly D. Gilmore, who resigned a few months ago. The new minister has accepted the call, and hopes to begin work in the new parsonage about November 15 or 20. In writing Mr. Moore says the choice of the congregation among a number of desires who have been preaching at the local church during the vacancy, and the call was formally extended to him last Wednesday night.

**THE VALUE OF CHARCOAL.**

**Few People Know How Useful It Is In Preserving Health and Beauty.**

Nearly everybody knows that charcoal is the safest and most efficient disinfectant and purifier in nature, but few realize its value when taken into the human system for the same cleansing purpose.

Charcoal is a remedy that the more you take of it the better it is, not a drug at all, but simply absorbs the gases and impurities always present in the stomach and intestines and carries them out of the system.

Charcoal sweetens the breath after smoking, drinking or after eating onions and other odorous vegetables.

Charcoal effectually clears and improves the complexion, it whitens the teeth and further acts as a natural and eminently safe cathartic.

It absorbs the injurious gases which collect in the stomach and bowels; it disinfects the mouth and throat from the poison of catarrh.

All druggists sell charcoal in one form or another, but probably the best charcoal and the most for the money is Stuart's Charcoal Lozenges; they are composed of the finest powdered willow charcoal and other harmless antiseptics in tablet form or rather in the form of large, pleasant tasting lozenges, the charcoal being mixed with honey.

The daily use of these lozenges will soon result in a much improved condition of the general health, better complexion, sweeter breath and purer blood, and the beauty of it is that no regular diet can result from their continued use, but, on the contrary, good results.

A Buffalo physician in speaking of Stuart's Charcoal Lozenges to all patients suffering from gas in stomach and bowels, and to clear the complexion and purify the breath, mouth and stomach, I also believe the liver is greatly benefited by the daily use of them. These cost but twenty-five cents a box at drug stores, and although in some sense a patent preparation, yet I believe I get more and better charcoal in Stuart's Charcoal Lozenges than in any of the ordinary charcoal tablets."

**ONE OF THE LONGEST BRIDGES IN COUNTY.**

Ray Fairall, county road overseer, reports that one of the longest bridges in the county has just been completed 18 miles east of this city on the Bluff road, near the old Giddings ranch. The bridge is 100 feet in length. The bluff road is the main county road east and goes clear to the Kansas line. The bridge cost in the neighborhood of $50.

**Cause of Lockjaw.**

Lockjaw, or tetanus, is caused by a bacillus or germ which exists plentifully in street dirt. It is inactive so long as exposed to the air, but when carried beneath the skin, as in the wounds caused by percussion caps or by rusty nails and when the air is excluded the germ is roused to activity and produces the most virulent poison known. These germs may be destroyed and all danger of lockjaw avoided by applying Chamberlain's Pain Balm freely as soon as the injury is received. Pain Balm is an antiseptic and causes such injuries to heal without maltration and in one-third the time required by the usual treatment. It is for sale by all leading druggists.

# PAPER WAS LESS BUT MONEY MORE

**FIGURES OF LOCAL POSTOFFICE SHOW BOTH A DECREASE AND AN INCREASE IN MONEY ORDER BUSINESS.**

The October Postmaster's Helper, which is a monthly magazine for men and women of letters or, in plain words the official organ of the postmasters of America, contains an article by Gilbert M. Edmondson, assistant postmaster of Denver, on The Money Order System. It is a paper which Mr. Edmondson read before the Colorado Postmasters' association at its recent session in Denver.

Mr. Edmondson states that the local postoffice figures for the year ending September 30 show that, in the money order business, there was both an increase and a decrease. The increase was in the dollars and cents represented in the money orders, while the decrease was in the number of orders issued.

# HORSE INJURED BY WAGON SHAFT

**POLE WAS DRIVEN IN ANIMAL A LENGTH OF FOURTEEN INCHES BEFORE IT SNAPPED OFF.—SERIOUS RUNAWAY.**

A horse belonging to Joseph Foss, an expressman, was painfully and possibly fatally injured by a peculiar accident in connection with the running away of another horse Friday afternoon.

Mr. Foss' team was standing at Nevada and Hoerfano when the runaway came up Nevada avenue. The horse came up right behind Mr. Foss' team and one of the shafts of the express wagon drawn by the runaway struck Mr. Foss' horse in the right hip. The shaft was driven into the hip 14 inches by actual measurement and when snapped off the runaway continuing to Pike's Peak avenue where it was finally stopped.

It required a pair of heavy nippers to pull the piece of shaft out of the horse's hip and a very ugly wound was left. The horse is now under the care of a veterinary and it is thought its life can be saved.

# LOCAL CREDITORS RETAIN TELLURIDE

## Judge Hallet Decides New York People Have No Jurisdiction Here---Plant at Colorado City Is Now Idle.

The United States marshal for Colorado is still in possession of the Telluride mill at Colorado City and will remain in possession for some time to come, under the ruling of Judge Hallett, of the United States district court at Denver.

Judge Hallett handed down his decision in the case yesterday morning and refused the petition of Receiver Roelker that the mill be turned over to him.

**Outside Jurisdiction.**

The court held that it had jurisdiction and not the New York court, which appointed Mr. Roelker, and that Mr. Roelker was not clothed with authority in this state.

It is understood that the Colorado creditors are preparing to have the property declared in bankruptcy in New York also. If the New York creditors desire to fight the question of jurisdiction they have the privilege of appealing the matter to the United States circuit court of appeals.

**Mill Closed Down.**

The Telluride mill is closed down now, the ore that was in the tanks having been precipitated and resolved into gold bricks.

The United States marshal was ordered by the court to reduce this ore but has no orders to go further towards keeping the mill running. Therefore the 30 odd men who were employed by the marshal to run the ore through have been released and, with the other men who were let out when the mill first closed down, are now waiting for their pay.

It has not yet been decided whether the attorneys for the local creditors will ask the court to order the mill to resume operations for the benefit of the creditors or ask for a sale of the property, or whether they will take either step.

# PROF. CAJORI'S TEXT BOOK ENTERS ADVANCED FIELD

## Colorado College Man Compiles Work That Simplifies Many Problems of the Mathematician.

The Macmillan company has just brought out a book entitled "An Introduction to the Modern Theory of Equations," by Prof. Florian Cajori, of Colorado college.

The book is the outgrowth of courses given during the past three years to graduate students at Colorado college. The mathematical talent of the faculty of the Colorado Springs High school and of Cutler academy has been enlisted in seeing the work through the press. In the preface the author expresses his indebtedness to Miss Edith P. Hubbard of the Cutler academy and to Miss Adelaide Denis of the High school, for valuable assistance in the reading of the proofs. Mr. W. N. Birchby, a graduate student at Colorado college, and also assistant in mathematics there, furnished the solutions to a large number of problems.

The book differs from other books on the theory of equations, published in the English language, in the selection of the material. Several topics usually found in advanced English texts are omitted to make room for new topics, which have not before received adequate treatment in English textbooks on the general theory of equations. Among these new subjects are the theory of substitutions and substitution-groups, the Galois theory of algebraic numbers, domains of rationality, cycle equations, Abelian equations and the proof of the impossibility of solving by algebra the general equation of the fifth degree. These subjects are somewhat difficult of comprehension. By the insertion of numerous problems the author endeavored to render these topics more concrete to the student.

The work is written for use with students who are advanced undergraduates or who are about to enter upon graduate courses in mathematics. It is intended to afford an easy introduction to the large treatises on the subject written by German and French authors.

# ATTACHED TRUNK IN DENVER; RAISED KNOTTY POINT OF LAW

Justice Thomas McClelland has a knotty problem of law before him in connection with an attachment case that is in his court. It is a question of jurisdiction.

The case is that of Dr. W. C. Ogden vs. A. C. Harris and the suit was originally brought to collect a bill of $324. The court costs have piled up and the total amount involved is much higher.

The law provides that on issuance of attachment the justice shall, on the return of the writ, continue the case twenty days. Justice McClelland did this before the writ was returned, in fact the writ was not returned until yesterday, and the defendant now claims that the case is not now before the court because of irregularities.

Constable Radcliffe followed Harris to Denver and attached three trunks belonging to him in that city, bringing them back to this city. The constable went to Denver to serve the attachment under the law which provides that a constable may go to any part of the state and attach property and return it to the county in which the attachment is issued. The defense, it is understood, will further claim that this law is unconstitutional. The case was argued all of yesterday morning and the justice has continued it to give the attorneys time to submit briefs to him.

**ON THE SAFETY OF OVER EATING**

**The Rule of Choosing the Lesser Two Evils Applies to the Way You Eat.**

I want to know how a man is to know when he has had enough.

The Pilgrim Fathers, I believe, had a quaint saying to the effect that you should always rise from the table feeling as if you could eat some more.

But the question is, how much more?

Just enough to stop?

That's the point.

The rule is wrong, because it's no rule at all.

It is inexact and unscientific.

It is likely to lead to the dangerous habit of eating too little.

And eating too little—or digesting too little which amounts to the same thing—is the cause of nine-tenths of the diseases from which humanity suffers today.

What is disease?

It is simply unevenly balanced between waste and repair.

Some organ lacks strength to carry on the special work for which it was created.

Where shall it find the strength it lacks?

In drugs?

Ten thousand times, NO!

Better die than become a hopeless drug fiend.

Nor in food.

"But," you say, "I eat plenty of good food every day."

True, dear friend; but you don't digest it

[illegible]

So, to make food do you good, you must take Stuart's Dyspepsia Tablets.

The great thing about Stuart's Dyspepsia Tablets is, that their action does not depend upon stimulative drugstory.

They cannot create a habit.

They contain no ingredients to "pick you up," "tone up your nervous system" or furnish whip cream, by calling out your vital reserve force.

They create new strength, force and energy—out of your Food.

If taken starving, they will do you no good at all.

So, eat to live, and live to eat with Stuart's Dyspepsia Tablets.

The curse of our present civilization is exhaustion.

Any exhaustion, whether of brain, nerves, physical strength, or vital force, is caused by starvation.

Of two evils, it is better to overload and prevent indigestion with Stuart's Dyspepsia Tablets, than to rise from the table, not having eaten enough to repair the exhaustion of your vital forces.

For exhaustion or starvation leads to the most varied forms of sickness or disease, brought on by inability of the weakened vitality to counteract the diseases, poisons, and microbes.

### SPORTING NOTES.

Titus, of the Phillies, is the only mustached National league player.

Thomas Stark, who is now racing his horses at Albuquerque, will take his string to Memphis at the conclusion of the New Mexico meet.

Yesterday was a vacation of the ball players, who sailed to play with Denver today at Broadway park in a game with the Correcta.

If John T. Brush were a fight manager, his remarks about the American league could be regarded as the first step leading up to a match.

Peoria wants a baseball franchise for next season. The league granting it should name the town to which the franchise can be transferred.

Many guesses have been in order as to the identity of the two American leaguers for whom Garry Herrmann is willing to pay $25,000. They are Freddy Parent, of Boston, and W. J. Bradley, of Cleveland.

There will be a meeting of the Colorado Springs Driving club Tuesday night in room 2, Midland block. At this meeting plans will be completed for the matinee to be held at Roswell next Saturday. There will be no charge for the races.

Come see the crowds and hear the music at Kaufmann's Anniversary Sale—Thursday.

### STRAIGHTFORWARD AND DEMOCRATIC.

Now, what is there that is reckless, what sign is there of ambition, about Theodore Roosevelt? Does he put on any show, or special style of state or dignity? No one has accused him of being other than a straightforward man, quite simple and democratic in his tastes. Imperialism is none of his creating; the Spanish war began under President McKinley, and Roosevelt was simply assistant secretary of the navy, doing what he could to get the best navy we had in the world to be lieutenant colonel of a regiment on the field. If that was reckless, more thousands of soldiers reckless. His military record was creditable, and there was nothing in it more reckless than becomes a soldier.

Then Roosevelt became president, and [illegible] the Philippine policy. Is there in it any touch of the reckless, the sensational, or the ambitious? There is about this policy just one salient, pronounced feature—it has been swift to exchange military for civil government. It has often angered the army men, because it has put confidence in the Filipinos, and given them a large and growing share in the government of the islands. It has tried, just as fast as possible, to exchange external, colonial domination for self-government. Is that ambitious, is it reckless? Is it not both generous and wise? If that is reckless, then may heaven grant us ever reckless presidents!

The Panama Canal.

Then there is his other great achievement, that of the assurance and control of the Panama canal. It was no easy task to secure and accomplish it, and it was a great honor to the administration and a great blessing to the country and the world, but was it a reckless act, anything that savors of unworthy ambition? Indeed, the world knows that it showed both patriotism and statesmanship.

Where, then, does this recklessness show itself? Was it in sending an army to deliver the Americans shut up in Pekin? No one will say it, for did no more than every other civilized nation did. The world [illegible] the part which the United States took in the campaign. Was it when he ordered the settling of the coal strike to submit their case to arbitration? The [illegible] and approval [illegible] in the independent people and the president may be in personality of a reckless ambitious nature, or much worse, but if so he has failed to show it in any of the [illegible] the world pictures [illegible] any other [illegible] in practice. There is simply no such evidence at all.

What, then, is at the bottom of this persistent [illegible] of Roosevelt as a man to be President? Roosevelt does not [illegible] the chance? Nothing but this [illegible] to do things. He has a [illegible] of what needs to be done and [illegible] and courage and [illegible] to [illegible] done. He is not the [illegible] and will [illegible] and [illegible] and does [illegible] He has been by the [illegible] of [illegible] and [illegible] and [illegible] and [illegible] That is a [illegible] trait, if a man be a fool, but it is the trait of [illegible] All men [illegible] and men of [illegible] Add to [illegible] [illegible] and [illegible] for the [illegible] and [illegible] a man [illegible]

## Republicans Planning for One of the Most Important Meetings of Campaign Tomorrow Night.

WILLIAM F. SLOCUM, D.D., L.L.D.
President of Colorado College, who will preside at Republican rally tomorrow night.

Senator Dolliver of Iowa and Chancellor Buchtel of Denver university will comprise the political bill at the Opera house tomorrow night.

This will be probably the largest and most enthusiastic rally of the campaign in this city. Senator Dolliver is one of the eloquent men of the country and Dr. Buchtel is one of the ablest orators of the state. The former will discuss the issues in the national campaign and the latter will discuss state issues.

The local Republicans are planning to make this a memorable occasion for Colorado Springs. The meeting will commence at 8 o'clock but previous to that hour the Midland band will discourse music on the streets and in the Opera house.

Business Men's Club.

The meeting will be held under the auspices of the recently organized Business men's progressive Republican club. President William F. Slocum of Colorado college, will be the presiding officer.

State Chairman D. R. Fearis, Congressman Franklin E. Brooks and Congressman Herschel M. Hogg, together with other state leaders are expected to be present at the meeting and the county candidates and other prominent Republicans will occupy seats on the platform.

All citizens, Republicans, Democrats and the unaffiled are invited to attend. Seats will be free as long as they last and standing room will be provided until it is all used up—as it is sure to be.

## REPUBLICANS WILL RALLY AT FALCON

Falcon is the next town to be visited by Republican speakers of this county in behalf of the national and state ticket. The rally will be held next Friday.

A big crowd of local Republicans is planning to make the trip with the candidates and speakers. Benjamin Robinson, precinct chairman for Falcon, has the arrangements there in charge and D. L. Holland chairman of the speaking committee, is looking after this end of it. He announces John B. Stephen, candidate for state representative, John R. Little and W. H. Price, as the speakers for the occasion. These three men are speakers of oratorical ability and Falcon is assured a treat of eloquence as well as a good dose of solid facts and figures.

## FILIPINOS DID NOT ORGANIZE

MASS MEETING FOR INDEPENDENCE IS ADVISED BY SANDICO TO DISPERSE AND AWAIT DEVELOPMENTS.

Manila, Oct. 8.—The mass meeting of Filipinos called for the purpose of considering the question of Philippine independence has been postponed. Teodoro Sandico, a former member of Aguinaldo's cabinet, was to have spoken in favor of the movement, but Sandico advised the meeting to disperse and to await developments.

## MILLIONAIRE DYING CHAUFFEUR DEAD

RESULTS OF YESTERDAY'S AUTO RACE IN NEW YORK—TIRES SLIPPED AND MACHINE UPSET.

New York, Oct. 8.—George Arents, Jr., a New York millionaire, lies dying at a hospital in Long Island and his chauffeur, Carl Meussi, is dead, as a result of the auto race for the cup offered by W. K. Vanderbilt, Jr. Arents' car was upset by the tires slipping.

The chauffeur was taken to a hospital, reaching it a short time after the accident. Arents was also taken to the hospital, where it was found he was suffering from a cerebral hemorrhage, and at an early hour today he was not expected to live. His family has been summoned to his bedside.

## A 300 MILE AUTO RACE RUN AMID GREAT EXCITEMENT

New York, Oct. 8.—Four-wheeled vehicles of all sorts and shapes, rushing along the road at a speed of from 60 to 80 miles an hour, the air resounding with the honk, honk of horns, the clanging of bells and the shouts of couriers, amid cries of "Get out the way!" and an occasional cheer from thousands of throats, stirred the atmosphere in Mineola, Hempstead, Garden City and other Long Island suburbs of Greater New York today during the annual automobile race for the W. K. Vanderbilt, Jr., cup.

One man was killed, one man is in the hospital seriously injured, many lives were placed in jeopardy during each of eight hours of the day, and many thousands of dollars were expended.

**Nerve Tension.**

The story of the race itself is one of intense excitement and nerve tension. After rattling for seven hours, some three at a speed of 60 to 80 miles an hour, faster than many express trains, George Heath, an American driving a Panhard-Levassor vehicle of foreign make and representing the Automobile club of France, finished first in the run of 300 miles, with Albert Clement, representing the same club and driving an 80-horsepower machine also of foreign make, one minute and 53 seconds behind him.

When the two men flashed by the judges' stand, amid the shouts and cheers of the crowd, the tension was relieved, and a great sigh of relief followed the tension of nerves that held the crowd for so many hours. But the award was not yet certain, for Clement lodged a protest with the racing board of the Automobile Association of America, under whose control the race was held, and the decision came but a few minutes before was withdrawn until the board had made an investigation.

Clement in his protest declared that he had been held up in Hempstead over a minute and a half and that if this had been allowed him he would have won. [illegible] that he [illegible] broke in Hempstead and that time was taken on him, while he was repairing it contrary to the conditions of the race. He also asserted that his time in controls had been charged against him.

Like all previous races of the kind there was a chapter of accidents and fatalities. The victims were among the participants in the contest. Fortunately none of the spectators along the course was hurt.

**Chauffer Killed.**

The man killed was Carl Menzel, a chauffer who was driving the car of George Arents of New York. The accident was caused by the tires slipping and it occurred [illegible] hours after the start. The car was traveling at a tremendous rate and was approaching a curve when it suddenly swerved and turned over. Menzel was caught beneath the machine, while Arents was thrown to one side. Both men were taken to a hospital, where Menzel died half an hour later. Arents escaped with a few cuts and bruises. Arents' car was demolished.

The race was started at 6 o'clock. The course was over a 30-mile triangle with turns that were sharp and dangerous. At two places the railroad crossed the highway at grade and there [illegible] were stationed to signal men. Twice at these crossings Caillois, a French motorist, narrowly escaped being struck by a train, in one instance passing but two feet ahead of a locomotive.

**An Early Start.**

After the first car was off promptly at 6 a. m. the others followed at two minute intervals. The Vanderbilt car was out of order when it came to start and it was more than two hours later when it was ready. A flying start in violation of the rules was made but the car kept on. It was officially barred, however.

Frank Croker's daring driving was a feature that brought spectators to their feet. After the fourth time around the 30-mile triangle, however, his machine had sustained injuries that put it out of the running.

Heath covered the last lap of 30 miles at the rate of 53 miles an hour. His average speed during the ten laps was 50 miles an hour.

[illegible] remaining [illegible] who were from two to three laps behind at the finish were called off without being allowed to finish it being found impossible to keep the crowd and tenders under control after the exciting race between Heath and Clement.

Heath passed Clement in the second round and Clement passed Heath, coming from seventh to fourth in the fourth round and to second place in the second round. At the third round Heath finished seven minutes and 53 seconds ahead of Gabriel.

At 8:30 Tetre was first, Heath second, Clement third and Gabriel fourth. Heath, however, finished the fourth round in the lead in actual time. Harder left at the end of the round.

Heath continued to lead until the eighth lap when he was passed by Tetre with Nieto and Clement passed him. At the 9-mile point the standing was: Heath first, Gabriel second, Clement third.

The excitement in the grand stand began to increase. Clement and Nieto a lead of one minute 45 seconds entering on the last lap according to the official announcement. Heath had gained a minute on him but was unable to wipe out the two minutes remaining.

The finish was made amid tremendous excitement.

The committee early on Sunday disallowed Clement's Protest.

THE NEW EMPIRE

Another week has passed and it has served to emphasize the popularity of the Empire stock company. The performance has been very finished, and the bad weather failing to materially affect the attendance.

Miss Merriman was the feature of the bill and her characters as a prima donna did not suffer one bit by her visit here. She was all that was represented. Seymour and May were also favorites and received many curtain calls during the week.

The Wellingtons were new and pose of their art and made for themselves a reputation here which will be long remembered.

Dolly Sherley and one of the season's cleanest specialty acts that has been presented here.

The last week before Miss Gale left for Europe.

Every one of the specialties will be kept on and some have been secured from the opera company.

Richard and Pringle's Georgia minstrels will be the next attraction. This company is said to be the greatest colored minstrel organization on the road.

Bessie and Wilson are a new and clever team of musical artists and Jennie Yorke in new songs. "The Valley of Kentucky" is a song with new features that have never before been heard here and promises an instant hit.

The Six Sorosis Sisters, with Jolly Sherley, Hawthorne and Burt, Ward Brothers, Stroud, Evers and Dean, "The Defending Rube," The Five Dolce Sisters, Foley, Sweet and the Two Roses & Co. will appear in a new bill.

DENVER GIRL'S RETURN. SUCCESS IN GRAND OPERA

Miss Jane Snyder, the former Denver girl, who returned from Paris after a year in Europe, where she went to begin rehearsals with the famous English Grand Opera company that expected great success in London, has met with success in Paris. Miss Snyder, who while in Paris was a visit to Juliani's pupils in Paris last season, and made of the young soprano to accept the engagement at once. She made her first debut at Sarrazins and then proceeded to accomplish the wonderful task of learning and singing six new roles in twelve weeks. These were Marguerite, Leonora, Aida, Elsa, Marguerite and Arline. It is no exaggeration to say no other grand opera singer ever mastered so many parts during her first year in opera in addition to these Miss Brooks learned the three great roles of Isolde, Desdemona in Verdi's "Otello" and Elizabeth in "Tannhauser," and was permitted to take either one at an hour's notice had Gertrude Hampden been unable to appear.

Frederick Ward and Kaierya Kidder are playing on the northwest in Stanislaus Stange's dramatization of Hichens' "Slaves."

In spite of the fact that Miss Walsh has just completed a record-breaking week at the Grand opera house, New York, and is to appear duplicating in Boston her wonderful success made in other cities with Towsley's "Resurrection," she will not make the Tuesday matinee December 3, to appear in Second Grand Symphony Concert, which Signor Scalchi's Kapelmeister Sonata, which recently had a big night at the Tandy theatre New York in January she returns to New York to present a new [illegible] by Clyde Fitch.

They con... ...into contracts with ... ...collect and burn the gar... ...ter about two years or ...tials plan was abandoned ... ...ther municipalities ... owing to the fact that garbage contains anywhere from 10 to 50 per cent of water.

It was after that experiment had been tried that the attempt at utilization of the garbage was made the first plant in the United States being erected in Philadelphia. This plant is located on the banks of the lower Schuylkill river, and to it all the garbage collected is taken and there disposed of. The contractors load the garbage on scows and tug boats transport them to the wharf at the plant and then the work of turning ... commercially valuable basics.

A huge elevator "leg," containing an endless belt fitted with broad buckets, is lowered to the deck of the scow, and the garbage is carried up by the buckets and discharged into several large perpendicular cylinders, which are called "digesters." In these cylinders the mass of stuff is crowded until each is brimful and the cylinder is then hermetically sealed. Live steam at a heavy pressure is then turned into the cylinders and the stuff

GREASE SETTLING TANKS.

In that period the stuff is thoroughly digested, or disintegrated and reduced to a pulpike consistency and all germs are completely destroyed. From the digesters the mass is conveyed to presses and subjected to a pressure of about 250 tons. When this is completed the cake, into which the stuff has been pressed, is taken to the drying room, where in another set of cylinders it is thoroughly dried and at the same time pulverized by revolving arms within the cylinders.

**Through Sieves.**

The pulverized stuff is then passed through revolving cylinders, sieves which permit all but solid matter to fall through in a fine powder, which is sold as a fertilizing base. In passing through the sieves such matter as bits of tin, iron, rags and similar stuff are separated from it.

The grease and water flowing from the mass when in the presses are led by pipes to a set of settling tanks and the grease rising to the surface is recovered in catch basins. The grease is used in the manufacture of the cheaper grades of soap, candles, etc.

The water remaining contains about 14 per cent of soluble ammonia and 11½ per cent. of soluble potash. It is pumped into large evaporators, after the grease has been skimmed off, and the two ingredients named are recovered, after the water is evaporated. Both the ammonia and the potash are mixed with the pulverized refuse from the revolving screens, thus raising its quality and value.

The immense quantity of garbage which is thus handled may be known from the statistics of the bureau of the Philadelphia city government, having charge of the collection of garbage and the disposal of it. There are 358,230 buildings in Philadelphia, and from them there was removed last year 501,625 cartloads of kitchen garbage, each load averaging one ton in weight. There was also taken from the houses 668,253 cartloads of ashes and from the 960 miles of streets 218,918 loads of dirt was gathered.

The figures just quoted give some idea of the wealth of the matter which can be annually thrown away in an American city. Experience in every city has demonstrated that in the ashes which is thrown on the dumps in the outskirts of the cities there is a big percentage of good coal which could be readily sifted from the real ashes. In with the ashes and the garbage are also found articles and materials which, if utilized, would bring hundreds of thousands of dollars. The tinware alone, which is carelessly flung by servants into the garbage pails, amounts to a large sum in intrinsic value, and in all the other refuse from the houses there is material of value if properly handled.

**...ans and Cans Again.**

It is only a few years back when every vacant lot was literally decorated with tin cans of all sizes and in various conditions as to cleanliness. The comic artist had the omnipresent goat and the tin can as a never-ending stock picture, but the "Billy" can no longer browses on the sentiment emptied tin, because some genius discovered that the old cans had a value, and today the empty can is remarkable for its absence from rubbish heaps. As the tin formerly laid on the lots battered and rusted it was not thought worth the gathering, but now it is carefully collected and in a big factory in the northwestern part of Philadelphia it is turned into cash weights. The cans are subjected to a fierce heat, and the solder and the tin coating run off, the latter into bars, and it is said that these two substances alone pay for the work of reducing the refuse into the round and square weights which balance the wagon ashes, leaving the amount derived from the sale of the latter as pure profit.

That capitalists are beginning to understand the commercial value of the refuse of a great city is evident before the mayor of Philadelphia. An attempt has been offered on behalf of parties as yet unknown to the public, to take all the garbage which the city will deliver at a place yet to be established, and pay the city the sum that the gross cost of collecting and hauling the garbage would be 75 cents per load, thus giving the city a profit of 25 cents per load. On figures on the basis of the quantity handled in 1903, a sum of $375,816.75, in actual cash, and to this should be added the sum of $514,875 which was paid to the contractor for removing the garbage in that year, making a total saving to the city of $890,692.75. It is stated that the offer to the mayor was based upon a contract to be entered into between the city and the new company that the latter was to have the privilege to handle the garbage for 20 years and at the end of that period the entire plant would be turned over to the city without any further consideration.

FERRY BOAT.

The letter of this offer has caused considerable of a ... among ... tractors who have had the ... for ... years ... accepted this year, as it is said that ... legislation will be pre... ... to ... ice city to enter into a ... that ... being a period.

**Not Here Quixotic.**

That the proposition to thus utilize the city's refuse is not a chimera, is evident in the report for last year made by the chief of the bureau of street cleaning, in which he says: "I would also recommend that the rubbish and household waste be collected on different days from those when the collection of ashes is made, so as to separate them accordingly. I have noticed that at the present time we are compelled to make these collections nearly every day, especially during the hot weather, the reason of the city being compelled to pay for the removal of such household rubbish and waste, an amount of many thousands of dollars each year, and this fifty thousand dollars each year."

In a talk with the chief of the bureau he explained that the reason for having the ashes and rubbish removed nearly every day, especially during the hot weather, was to prevent the breeding of flies and mosquitoes, which would be necessary to some extent if the garbage was allowed to remain for a longer period. Besides, the odors from the garbage would be very offensive to the residents of the neighborhood. The chief said that the ashes and rubbish could be removed from the houses every other day, and the garbage every day, and that if the people would only separate the garbage from the ashes and rubbish, and put it in separate receptacles, much labor would be saved. The chief said that the present system of collecting the garbage and ashes from the houses was the same as that in vogue in the days of the old volunteer fire department, when the firemen had to haul the engines to the fires with ropes. The chief said that the city should have a number of wagons for the garbage and ashes, and that it was the duty of the people to put the garbage and ashes in separate receptacles, which have been provided by the city, and all that is necessary is some system.

In order to overcome the prejudice which exists in the minds of a number of people who make a living from the refuse of the city, it would be necessary to employ only those who have been employed by the city in the past, and who have been thoroughly educated in their work, and all that is necessary is some system.

## GEMS WORTH $1,250,000 GIFTS TO MISS ASTOR

**WEDDING PRESENTS FOUR IN ON THE BRIDE-ELECT, WHO IS TO MARRY CAPTAIN SPENDER-CLAY.**

London, Oct. 8.—The wedding par excellence of this month will be that of Miss Pauline Astor. It is to take place in London, October 5. The jewels Miss Astor already has received are said to be worth more than $1,250,000. Some of these have been presented by her father, and her fiance, Captain Spender-Clay, has obtained unique and rare gems for his bride-elect.

Her wedding gown is to be of ivory satin and will be draped with priceless lace.

It is definitely arranged that the duke and duchess of Roxburghe are to have a visit from the prince and princess of Wales at Floors castle early this month. The prince visits numbers of country houses, but the princess, like the queen, goes only to her very intimate friends.

A weekly social paper says that although it is quite an open secret that the princess never had any regard for the prince, she at once welcomed the American she at once welcomed the young duchess of Roxburghe into her circle.

## LIVERPOOL WANTS COPPER COIN.

London, Oct. 8.—Liverpool is suffering, like some other towns of England, from a dearth of coppers. The shortage is said to be due to the popularity of the penny-in-the-slot machine, of which there are now more than 3,000 in Liverpool, and as they are only cleared once a quarter it may be imagined they eat up a very considerable sum.

## ROYALTY TO BE MORMONS

**KAISER'S SISTER URGES POLYGAMY AS CURE FOR SOCIAL ILLS—DUKE REVIVES OLD SCANDAL.**

Berlin, Oct. 8.—Two social sensations are agitating the German court, both of them directly affecting are supposed family. The emperor's sister has written a pamphlet advocating polygamy, and the empress' brother is prosecuting a former companion of his sister in a way that suggests persecution to prevent her from recovering money from her late mistress' estate.

The kaiser is doing all in his power to suppress the pamphlet on polygamy, the author of which is Princess Charlotte of Prussia, wife of Prince Bernhard of Saxe-Meiningen.

**Sees Cure for Divorce.**

She urges polygamy as a remedy for social ills. She urges that divorce is the consequence of boredom, and if husbands were allowed to make several women happy a social millennium would ensue.

Princess Charlotte is 40 and has one daughter, who is married to Prince Henry of Reuss. It is said the kaiser has threatened to appoint an alienist commission to inquire into Princess Charlotte's state of mind, but it is doubted now whether he will do so after the scandal of Princess Louise of Saxe-Coburg.

Even in this era of court scandals there is none worse than that involved in the charge of the theft of a diamond brooch brought by Duke Ernst Guenther of Schleswig-Holstein, brother of the German empress, against the Countess Milowski, companion and confidante of his late sister, the Duchess Amalia.

**Chosen by Duke Himself.**

Countess Milowski was chosen by the duke himself as companion to his sister in 1897. All went well until one night in 1900, when he suddenly provoked a violent scene with Milowski at the castle of Frickenau, making a terrible charge against her and the duchess. The latter sided with her companion and both fled, first to Kiel, afterward to Ems, then to Malta, Egypt and Algiers.

Duke Ernst stopped his sister's allowance and several attempts were made to subject Milowski to Algiers and Malta. Finally in the spring of 1901 she was ... a lonely house in the suburbs of Cairo, where Von Hummelhut, the duke's confidant, threatened her with terrible penalties unless she separated from the duchess. Finally he told her to find her boxes with what they contained, which money was handed to her on her return to Germany.

**Held a Close Prisoner.**

She was kept a prisoner several days, then sent to Naples, where she fell ill. On receiving the letters that the duchess had died.

She then entered a claim of ... against the duchess' estate for money lent. The case is now in progress, embezzlement and theft. The three former charges now are discharged.

## WOE IN SMART SET! BRITONS "HARD UP"!

**MONEY SO TIGHT THAT LESS WINE IS CONSUMED — NEW CLOTHES ARE ALMOST IMPOSSIBLE.**

London, Oct. 8.—How are the mighty fallen! Much has been said and written lately about the hard times and tightness of money. During the last week official returns have shown a falling off in the consumption of expensive French wines and brandies, and this has been attributed to a lack of cash among the upper classes.

Such facts, however, pale into insignificance before the relation of sartorial tragedies which the "hard times" are causing in the smart set.

"In all my long experience," said a west end tailor, with an ostensibly smart set clientele, "I have never known such a pressure in the repair and renovation line. Society is short of money. Ordinary business is slack, but we are inundated with repair orders. Coats are sent to be refitted, relined, cleaned and pressed. Trousers have to be turned up, and you may not believe it, sometimes reversed. I am referring to some of my best customers, who a few years ago would have given these alterations such ideas.

"Often enough the clothes are quite past repair and we are obliged to send them back."

## ATTEND BRIDE IN BARE FEET.

London, Oct. 8.—The four bridesmaids at the wedding of Lady Henrietta Grimston, the daughter of T. Vernham, wore sandals and their robes, shapely feet attracted pardonable admiration at the church instead of gloves they wore pattens and otherwise complete early Victorian costumes. The Grimstons have cultivated the wearing of sandals and their feet looked quite nice in them, but the ... of ordinary women, ... in narrow pointed boots scarcely would bear the exposure.

## CUTS ENGAGEMENT SOCIETY SURPRISED

**FIANCE OF DAUGHTER OF LONDON'S LORD MAYOR CANCELS ENGAGEMENT—TOO IT IS TO OFFER EXPLANATION.**

London, Oct. 8.—A sensation has been caused here by the sudden disappearance ... the employ of the Egyptian government, who was to have wedded Miss Constance Ritchie, the daughter of Sir James Ritchie, lord mayor of London.

The evening before the wedding day, while a large number of guests were about to sit at a splendid banquet given by the lord mayor in honor of the bridal, a note was received from Mr. McCalmont, requesting that his name be removed from the bridal list, and the bride-to-be swooned and is now in a dangerous condition.

Mr. McCalmont has since ... to Scotland, where it is said he is dangerously ill with typhoid, awaiting prostration, but it has been impossible to obtain from him any explanation of his conduct.

Only a few hours before he had been shopping in the city in a hansom in company with his affianced bride, and appeared in very good spirits. The family of Sir James Ritchie also is unable to account for the breaking of the engagement.

## PLANS HOME FOR AGED ARTISTS

Paris, Oct. 8.—M. Tony Revoil, French president of the Societe des Artistes Francais, announces that there will be established shortly for a home for aged members of the society. # TENTH ANNUAL CONVENTION COLORADO FEDERATION OF WOMEN'S CLUBS

The club women of Colorado must be congratulated upon the complete success of the tenth annual convention of the Colorado Federation of Women's clubs, held last week in the fine university city of Fort Collins. One of the very best and most helpful of programs was successfully carried out.

Unbounded hospitality was accorded those in attendance. The mayor of the city, Dr. McHugh, surrendered the golden "key" of the city to the club women and the trustees of the State Agricultural college placed their commodious building at the disposal of the convention. Even the [illegible] were taken to visit the [illegible] on the campus at night, less the flowers be "nipped by Jack Frost" before the convention dates.

The spacious residence of Mr. and Mrs. W. P. Hottel on College avenue was thrown open to [illegible] reception on Tuesday evening. The gracious host and hostess really made the guests believe that their presence was a special favor to them, evidently.

Carriages awaited those not provided to drive and the visitors were shown the various [illegible] and auditoriums of the college, the driving park, the auditorium, the [illegible] streets, public buildings, etc.

One day the delegates were the guests at luncheon at the dormitories where being served under the supervision of Prof. Thomson, of Pullman, domestic science at Pullman, on behalf of the agricultural college. THE WOMAN'S AUXILIARY of the Young Men's Christian association held an [illegible] meeting last Monday afternoon in the parlors of the association building. The most urgent work of the organization for this winter is paying off the balance of the debt incurred in furnishing the new building. The amount is now less than $600.

When each member has paid her annual dues of one dollar the debt will be reduced one half. During the past week a great effort has been made to collect all the dues in order that Mrs. Morrow, Miss Helen Gould, who is deeply interested in the work of women in the [illegible] may be presented with a complete list of this [illegible] with all dues paid. The dues are being received for the auxiliary by W. W. Williamson, 27 North Tejon and W. N. Burgess, 119 North Tejon street.

The Home and Education department of the Woman's club held its first meeting for this year yesterday afternoon at the home of Mrs. Lulu B. Sutton, 1005 Cheyenne road.

The program consisted of interesting papers and discussion on "Hereditary Influences" led by Dr. Margaret H. Bibler and Dr. Josephine D. Peavey. A pleasant hour was passed socially. The rain prevented enjoying the afternoon tea, as [illegible] but a pleasant time was reported nevertheless.

Mrs. Carrie Harper White gave a most interesting [illegible] Wednesday afternoon before the art and literature department of the Woman's club on "The Home Beautiful, and How to Select Reproductions."

The [illegible] meeting of the Wednesday Art club was held last week at the home of Mrs. Charles W. Holmes, 1506 North Tejon street.

The Anne Hathaway Shakespeare club met for the first time this season, yesterday afternoon with Mrs. B. V. Wendell, 1619 North Tejon street.

An open meeting of Chapter C, P. E. O., occurred last night at the residence of Mrs. C. H. Barnes, 1924 North Nevada avenue.

The woman's auxiliary of the Republican Central committee has taken up the fall campaign with great spirit and will hold meetings every Friday afternoon, at 2:30 o'clock, at the Republican headquarters, in the women's parlors. Mrs. Frances W. Goddard is leading her utmost endeavors to further the object of the organization, as chairman of the executive committee, ably seconded by the secretary, Mrs. Robert Kerr.

The other members are as follows: Miss Jennie Burns, Mrs. W. N. Ruby, Mrs. [illegible] Mrs. [illegible] Williamson, Mrs. W. E. St. John, Mrs. E. B. Eyles and many others.

Recently two women will be constantly at headquarters in readiness to give information in regard to registering, etc. The committee has issued personal letters to all the unregistered women of the county, in the interests of the league, pointing out the duties devolving upon the women voters.

A special and very important meeting of the board of directors of the Colorado Springs branch of the Needle Work Guild of America will be held at 2:30 o'clock sharp, at the home of the president, Mrs. W. E. Riddle, 811 North Tejon street, this afternoon. The meeting will be brief and all are urged to be present, particularly the new directors.

The ladies of the First Methodist church will hold a rummage sale Thursday and Friday, next in the Alamo sample rooms.

The social science department of the Woman's club will hold its next regular meeting on Wednesday, October 12, at 3 o'clock, in Caledonian hall. The paper of the afternoon on "The Teaching of Municipal Government and Art in Our Schools and Colleges" will be read by Miss Myra H. Moore.

The Tuesday Bay View Reading club [illegible] at the home of Mrs. A. J. Chase, 519 North Nevada avenue. There were seven members present and all [illegible] over the work for the year.

The election of officers resulted as follows: Mrs. J. W. MacRae, president; Mrs. A. J. Chase, vice president; Miss Sherrod, treasurer; Miss Tilford, secretary.

The work of the year will be a study of Russia and Japan, which will be very interesting at the present time.

The next meeting, on October 11, will be held at the home of Miss Sherrod.

The Minerva [illegible] met last Monday with Miss Marybelle Taylor, 11 East Boulder street. A general business meeting was held, after which Miss Elizabeth Knox, Miss Marybelle Taylor read a paper on Early Christian Architecture. Dainty light refreshments were served. The next meeting will be held on Tuesday, October 11, with Miss Marie Gardner, 29 North [illegible].

## ANNOUNCEMENT.

THE UNDERSIGNED desires to announce that the Gazette, its franchises, machinery, goodwill and all other property has been sold to Mr. Clarence P. Dodge of this city.

This will be the last issue of the Gazette under the present ownership and management. In concluding my relations with the Gazette and its patrons, I desire to thank them, subscribers and advertisers, for the earnest and loyal support they have given this newspaper during the last 13 months. I shall always remember with gratitude their expressions of friendship and good will.

I desire to bespeak for the new owner of the paper the same generous support which has been accorded to me. I know that it will be fully merited, and that the Gazette will continue to be kept at its present high standard as a newspaper, and that it will be unswerving in its support of all that pertains to the best and best interests of Colorado Springs.

GEORGE NOX M'CAIN.

## CONVICTIONS SEEM INFREQUENT.

A FEW DAYS AGO a Pueblo alderman, accused of murder, pleaded the privilege accorded to a citizen before the indictment. Here was a very serious charge. It was a charge that a man ought to have long and to have passed upon by a jury in order that he might have been acquitted if innocent. But the advantages of a technicality to avoid trial.

Similarly in a number of cases which have been tried in Colorado Springs, and one that has not been tried. The rest of them have escaped through flaws (in the indictments or through some other means. Have the courts lost the point in the administration of justice—the point that the community expects when it foots a bill in court for trials? Are our prosecutors unable to frame an indictment that will be found to be full of flaws when brought before the court?

It is a very serious question. For despite the general view to the contrary, we believe that the prosecutor, proceeding as it does upon the people his suit as does a citizen to secure his acquittal. In other words, the people have lost as important and vital rights in the case as the prisoner for the guilty must be punished and the ends of the state, quite as certainly as lost by a miscarriage of justice. There is too little confidence in the criminal courts, too much carelessness and too serious risk exists in the administration of equal and exact justice in our criminal courts today.

## THE PASSING OF JOE JEFFERSON.

JOSEPH JEFFERSON has been long a stage figure, and has retained as unexpectedly as it came, so has the career of Joseph Jefferson, one of the conservative actors of the theatrical constellation, which has graced the American stage fairly glitter for half a century or more.

Jefferson's unassuming temperament and simple, yet dignified and distinguished acting, won for him a host of friends and admirers. To this unassuming nature it is to that foremost, form familiar for the most intimate that of a stranger in private life.

## A POINT THAT FAILED.

CHAS. J. HUGHES, in his speech on Friday night, made what he apparently thought was a very strong point in accusing the Republicans in congress of suppressing an investigation of the postal scandal. The fact of the matter was that the department of justice and postoffice department had made a most thorough, careful and searching investigation into the whole matter. It had developed all the facts by the work of its special agents, and was vigorously prosecuting all guilty, whether private citizens or their trusts.

Notwithstanding this the Democratic party in congress, toward the end of the session, solely for the purpose of making political capital, and not to develop any new facts wanted to rehash the whole business over again. The Republicans voted against it, and they were entirely right in taking that position.

Mr. E. S. Hanger, the Federation attorney in Cripple Creek, [illegible] adhesion to the staff of Democratic [illegible] Applebee [illegible] a first-class lark of one without clinging too closely to the facts and readily get upon the Democratic payroll either in state or nation.

The peace congress is doing some fine resolving on peace versus war, but the trouble is that congress doesn't seem to have the ear of the nations that are quarreling.

Mr. Douglas, the showman, has been named by the Democrats for governor of Massachusetts. Nevertheless, we will be apt to find the walking rather rough.

Judge Herrick and Judge Parker talked it over. New York seems to be a state with an overplus of political gumbo.

### NECESSARY QUALITIES.

The conduct of the campaign is peculiarly dependent upon us as a body of men intensely believing, each individually in our own sovereignty, that we possess the qualities of prudence, self-knowledge and self-restraint. To put sovereignty, as some would do, at the mercy of a single party, as President Roosevelt in Providence, R. I., Aug. 27, 1902.

# RHEUMATISM

The most scientific physicians of Europe and the east after careful scrutiny give universal testimony as to the value of Hot Air Treatment for rheumatic troubles, and state that the percentage of cases of Rheumatism cured by Hot Air Treatment is greater than that by any other known remedy.

Seven years ago the hospitals of New York inaugurated this treatment which was then a new thing. Since that time every hospital in the country can be called upon to endorse its efficacy.

## Handling Railway Traffic by Telephone

NEW YORK, Oct. 8.—The judgment daily Texas, for example, the cost of a message from one of the extreme east or west points to the other is about $9. Consequently short rates for the long distance message are impossible. Very likely it is 10 miles to the nearest telegraph station, but the current which carries the telegraph message makes it possible for railroads to use what is described as a composite system, telephone and telegraph features both employing the same wires. Of course, telegraphing over iron wires such as the telegraph uses is not so satisfactory as it is on specially constructed lines of copper, such as are employed by the Bell companies for their service, so some of the great railway systems, notably the Pennsylvania and the Illinois Central have built elaborate telegraph systems and naturally have both to maintain lines of poles. But little by little as the telephone shows itself fitted, especially in the management of train operations it finds a place in the intricate methods by which great transportation lines are managed. The fact that the electric impulse which transmits the sound of the voice does not interfere with the current which carries the telegraph message makes it possible for railroads to use what is described as a composite system, telephone and telegraph features both employing the same wires. ### THE BEST DOCTOR.

Rev. R. C. Burton, Sulphur Springs, Texas, writes, July 15, 1903: "I have used in my family Ballard's Snow Liniment and Horehound Syrup, and they have proved certainly satisfactory. The Liniment is the best we have ever used for headache and pains. The cough syrup has been our doctor for the last eight years." 25c, 50c, $1.00. Sold by Hefley-Arkansas Drug Co.

It is announced that Aiken, who gave promise of becoming a star halfback at Yale, failed to pass his examinations and has returned to Colorado. Dr. Langworthy went to Wisconsin with him, will also return.

# LOOTING A FASHIONABLE FAD

[illegible] in the whole range of the [illegible] one is ignored. The other is pursued.

One is fashionable [illegible] the million.

The other is none who can't.

These ways of doing are the reasons for the wide gulf of difference fixed between the two things. The gulf is fixed, nevertheless.

# RICH ORE FROM THE FLORA LEE

## Mineral Hill Lessee Believes He Has a Rich Find--Rates Made on Treatment of District Ores.

Special to the Gazette.

Cripple Creek, Oct. 8.—Lessee Grelle and associates who have spent many months prospecting around the Mineral Hill section of the camp, have pretty well established fact to be traced the source of a large amount of placer gold that has been found in the park of the district, and is openly believed that he has opened up a body of ore on the Flora Lee property which will make a producer in the near future.

Today there was considerable excitement developing concerning the new find on the Lee, a shipping record of three of the ore wagons to station that no one outside appears to realize the importance of the strike. It is now reported that a carload of ore will be shipped in the course of a few days.

A number of days ago a body of ore was encountered on the property and other leasers, a large showing of the free gold from the property was noticed. However, Lessee Grelle, realizing that a settlement down would mean the course of the ore encountered a lessee on the ground and after examining and sampling carefully the ore body in the last few days, has now practically bonded the property and closed an option.

In this ore body from one Mineral Hill lessee is said to show in the face of the vein, gold nuggets in the camp have already begun to find value in this find.

### Treatment Charges.

The United States Reduction and Refining company and the American Smelting company have put out a new scale going into effect Monday, October 10, that gives notice to producers who are not under contract to either company of the rate which they are willing to contract for and also the open rate which will apply until further notice. The contract rate is as follows: Up to 5 ounces, $3.75 per ton; 5 to 6 ounces, $4.75 per ton; 6 to 7 ounces, $5.75 per ton; 7 to 8 ounces, $6.75 per ton; 8 to 9 ounces, $7.75 per ton; 9 to 10 ounces, $8.75 per ton; 10 to 11 ounces, $9.75 per ton; 11 to 12 ounces, $10.75 per ton; 12 to 13 ounces, $11.75 per ton; 13 to 14 ounces, $12.75 per ton. Upon ore that carries values of $15 or above a flat rate will be made plus the freight to Denver or Pueblo as the case may be. It is well to note here that the [illegible] rate to Denver and Pueblo is the same this week for either the producer.

The open rate will be $1.00 each and every ton higher than the contract rate as set forth above. The schedule above applies to all shipments made after October 15 and naturally applies with the consolidation of any special rates which have hitherto existed.

It can be safely said that the two companies have not in any way taken advantage of the unsettled condition that has heretofore existed between the Telluride company, a five-and-ten-cent rate for contract and miscellaneous shipments. It is only fair to say that the U. S. R. & R. company and the U. S. & R. company have made a contract rate that is just about between the rates that were in force prior to the time the Telluride Reduction company came into the field and the rates the Telluride company made for the various producers in the camp with whom they made contracts.

### SAVED HIS LIFE.

J. W. Davenport, Wings, Ky., writes, June 14, 1902: "I want to tell you I believe Bucklen's Arnica Salve saved my life. I was under the treatment of two doctors, and they told me one of my lungs was entirely gone, and the other badly affected. I also had a lump in my side. I drank such that I could have lived over two months longer. I was induced by a friend to try Bucklen's Arnica Salve. The first application gave me great relief; two fifty-cent bottles cured me sound and well. It is a wonderful medicine and I recommend it to the world." Sold by Heller-Arapahoe Drug Co.

# STOCKS CLOSE WEEK STRONG

### GROWING BELIEF IN SUBSTANTIAL BUSINESS REVIVED—FINAL ADVANCE 2½ TO 3.

New York, Oct. 8.—The stock market made a strong demonstration to close the week and dissipated the reactionary appearance which had followed the week's opening strength. The features today were United States steel preferred and Southern Pacific. The movement in the former was apparently in connection with the sunshine forecasts by persons having former connection with the trade. The rise in the Southern securities was attributed to the favorable estimates of the corn and cotton yields which find currency in financial circles. Union Pacific showing of net earnings for August was helpful to that stock. The market was sluggish and rather irregular until the appearance of the bank statement, in appreciation of what its effect would be and prices ventured about the time it appeared, but the final dealings brought active buying and the market closed strong and active. Reduced collateral loans in connection this morning which prepared payments for the heavier decline in cash reserves then was indicated by the heavy improvement in currency, the increase in loans although small was in contemptuous the view of a feeble stock market liquidation during the week.

The weekly rate-cattle services rate cuts, it is hoped that may lead to an extensive the grocery below in substantial amount, centered on the extension of the week's work of existing and additional products for this class. The railroads in question receive in exchange values that stem largely from the [illegible] period [illegible] for the first time this season, the figures for last year having been $16,611,150. Total sales of bonds, par value, $1,610,000.

for the student and the writer, as an authoritative reference book for schools, teachers, families, business and professional men, there is one book which offers superior advantages in the solid value of its information, and the ease with which it is obtained.

One's admiration for Webster's International Dictionary increases daily as it comes to be better known. It never refuses the information sought and it never overwhelms one with a mass of information illogically arranged.

The St. James Gazette of London, England, says: For the teacher, the pupil, the student and the literateur, there is nothing better; it covers everything.

## LEGAL NOTICES.

CONSTITUTIONAL AMENDMENT.

Notice is hereby given that at the general election to be held on the eighth day of November, A. D. 1904, there will be submitted to the qualified electors of the state of Colorado the question of amending the constitution of said state.

The following ballot title and submission clause to be printed on said ballots:

For the adoption of the amendment to section 5, 6, 7, 8 and 9 of article VI, concerning the Supreme Court.

Against the adoption of the amendment to section 5, 6, 7, 8 and 9 of article VI, concerning the Supreme Court.

Be it resolved by the [illegible] Assembly of the State of Colorado.

Section 1. That section [illegible] of the constitution of the state of Colorado be amended to read as follows:

Sec. 5. The term of office of the judges of the supreme court, hereafter elected, except as in this article otherwise provided, shall be ten years.

Sec. 6. Section eight (8) of said article six (VI) of the constitution of the state of Colorado shall be amended to read as follows:

Sec. 8. No successor of the judge of the [illegible] shall be appointed.

On the first Wednesday of April, 1905, the court of appeals shall cease to exist, and the judges of said court whose regular terms shall not then have expired shall cease to be judges of the [illegible]. All causes pending before the court of appeals shall then stand transferred to and be pending in the supreme court, and no bond or obligation given in any of said cases shall be affected by said transfer.

The term of office of that judge of the supreme court whose term expires on the second Tuesday in January, 1905, shall not expire the term of office of that judge transferred from the court of appeals, whose term shall expire in April, 1905, shall expire on the second Tuesday in January, 1905, and the term of office of that judge of the supreme court whose term expires [illegible] shall be extended to the second Tuesday in January, 1907, and the term of office of the judge of the supreme court whose term expires on the second Tuesday in January, 1909, is hereby extended to the second Tuesday in January, 1911, and the term of office of the judge of [illegible] whose term would expire in April, 1905, and every sixth year thereafter, there shall be elected two judges of the supreme court.

At the general election in the year 1906, and every sixth year thereafter, there shall be elected two judges of the supreme court.

At the general election in the year 1908, and every sixth year thereafter, there shall be elected two judges of the supreme court.

Provided, that if said court of appeals [illegible] at any time of the year into effect of this amendment, by [illegible] of only three judges, the remaining members of said court shall constitute a quorum, and the concurrence of the senior judge of the supreme court shall be sufficient to render any decision of the court of appeals.

Provided also, that nothing herein contained shall be construed to prevent the election at the first general election to be held after the adoption of this amendment, of the judges of the supreme court and their successors, or abridging their terms of office as provided in Art. VI, section 5 of the constitution of this state.

The judge having the shortest time to serve, not holding for office by appointment or election to fill vacancy, shall be the chief justice.

Of the two judges whose terms of office expire upon the same day the younger in years of the two judges shall be the chief justice during the first two months of the term of office and the older of the two judges shall be chief justice during the last year of his term of office.

The chief justice shall preside at all sessions of the court en banc, and in case of his absence, then the judge present who would next be entitled to become chief justice shall preside.

Until otherwise provided by law, the supreme court shall have power to review the judgments and proceedings of inferior courts in such instances and in such manner as may be provided by law, subject to the [illegible] establishing the court of appeals.

Sec. 7. That all the terms at any election and contests or votes for or against said amendment shall depend on the ballot-box for which [illegible] shall be printed the words "For the amendment to [illegible] 5, 6, 7, 8 and 9, of article VI, concerning the Supreme Court and the Court of Appeals," and "Against the amendments to sections 5, 6, 7, 8 and 9, of article VI, concerning the Supreme Court and the Court of Appeals," and shall indicate his choice by placing a cross opposite one or the other of said groups of words.

Any elector may indicate his approval or disapproval of any one or more of said sections by [illegible] to be recommended for section to approval or rejected by placing in the [illegible] a cross [illegible] Such official ballot shall be so prepared as to afford the electors the opportunity to express their choice on [illegible] provided.

Sec. 8. The votes cast for the adoption or rejection of said amendment shall be canvassed and the result determined in the [illegible] of the state for the canvass of votes for representatives in congress.

Approved April 5, 1903.

In testimony whereof, I have hereunto set my hand and affixed the great seal of the state of Colorado, at the city of Denver, this 21st day of September, A. D. 1904.
